

Hello Dear colleagues,

We were very happy to visit you and see your company's products at the Istanbul exhibition. Our company is producing main ingredients with very high quality in the brand of OI'WE that **Formulated and licensed by the company of MED EXTENDER GmbH, Germany.**

Our peptides and fats are extracted by the methods of enzymatic hydrolysis, ultrafiltration, freeze-dryer and supercritical co2, from natural sources as beluga caviar (from the Caspian Sea) and eggs.

Finally we formulated three types of concentrated liquid ingredients for using in various cosmetic products as active ingredients and several final products as following list.

A = Our unique ingredients with specific effects:

1- Beluga Caviar total extract 5%: have peptides, omegas, vit E, Mycosperins and selenium. One to two liters of this product will be enough for making 50 kg of cream or serum or other products with best effects.

2- Super Anti-aging Caviar Complex that have: Copper Tripeptide-1, Caviar hydrolyzed extract, Vit E, Hydrolyzed Collagen and Hyaluronic Acid.

One to two liters of this product will be enough for making 30 kg of force anti-aging products with best effects.

3- Super anti-spot anti freckle Caviar Complex that have:

3-o-ethyl Ascorbic acid, Ferulic acid, Caviar hydrolyzed extract, VIT E.

One to two liters of this product will be enough for making 20 kg of force anti-freckle products with best effects.

B = Our Base and Enriched Products:

1- Base Cream. Base for making different creams.

2- Enriched Petroleum Jelly with egg and caviar peptides.
